1. The following is the organizational structure of the East German Ministry of Health: **1/**
 - a. The office of the Minister
 - b. The office of the State Secretary
 - c. The office of the Organization Instructor (Organisationsinstrukteur)
 - d. The Z-Departments (Z-Abteilungen)
 - e. The Main Departments (Hauptabteilungen)
 - f. Main Administration Pharmacy (Hauptverwaltung Pharmazie)

The minister, the state secretary and the organizational instructor have powers extending over all of the Z-departments and the main departments. HV Pharmazie is responsible through its chief to the minister and state secretary. The Z-departments and the main departments are subdivided into departments and Referate. HV Pharmazie is subdivided into Referate only. The organizational instructor supervises the organizational work of the ministerial units and of those services and institutes which are under the control of the Ministry. He also supervises compliance with the personnel and finance plans. He is responsible to the state secretary.

2. A number of institutes, which are listed below, are affiliated with the Ministry (dem Ministerium "angeschlossen"). These institutes are under the direct control of the Ministry; each of them is controlled by a ministerial department. Other institutes, which are not under the control of the Ministry of Health but of other ministries or state organs, are controlled by the Ministry in their research work as far as it has to do with health topics in the largest sense. These institutes are "supervised" ("ueberwacht") by the Ministry.

25X1A 1/ [REDACTED] Comment. This report will supplement, and in some points correct, the information given in [REDACTED] 25X1A

25X1A 2/ [REDACTED] Comment. Kern was a member of the SPD and personal friend of the Hesse social democratic Minister of Interior, Wilhelm Leuschner, executed in 1944 in connection with the plot against Hitler.

25X1A 3/ [REDACTED] Comment. The plants under HV Pharmazie are listed in [REDACTED] 25X1A

25X1A 4/ [REDACTED] Comment. This is probably a department of the Institut fuer Medizin und Biologie, Berlin-Buch.

25X1A 5/ [REDACTED] Comment. The 1950/1951 handbook of the Academy of Sciences does not list these departments of the Institut fuer Medizin und Biologie, whereas the other ones are listed.
